

Dear Parents,

We are using a computer program in the classroom called **Freckle**. With Freckle, your child has been able to practice Math, ELA, Social Studies and Science at his or her own ability level!

You and your child can access the program in a couple ways:

1. Access the program online at [freckle.com](https://freckle.com) using Google Chrome as your browser, selecting "Student sign in" at the top of the page.
2. Access the program on an iPad with the free app: [freckle.com/app](https://freckle.com/app)

Your child will login using their first and last name as well as our class code

\_\_\_\_\_.

Once they have logged in, it is important that this practice is done **independently**, without any help at home. If they are having difficulty with a concept, and the video tutorials on the site do not help, your child may either stop or go on to another section. I want the information that I gather from Freckle to be a true picture of your child's Math, ELA, Social Studies and Science skills.

Thank you for supporting your child's education at home.

Sincerely,
