

Parent/Guardian,

As the year progresses, one important issue that is discussed in your child's social studies class is the importance of understanding their role in the world, both now and in the future. One way that your child can see the importance of their involvement is through community service projects.

Your 7th grade student is going to have the opportunity to earn up to thirty extra credit points in Social Studies by participating in community service around their community. They will receive 5 extra credit points for each documented hour they participate in a community service project.

Students are encouraged to find community service opportunities outside of their immediate family.

To document these hours, students need to have a community service form (see attached signed by the coordinator or overseer of the activity. This form will include the location of service, telephone number to coordinator/overseer, job that was done, hours spent., date, and a signature.

If you have questions please contact me.
