**Middle School update:**

The middle school has a great energy. It's so good to be getting back into the classroom(s). Teachers are back in the groove. It feels almost like a full year already with all of the excitement.

Thank you again to the PAC for the Keurig.

October 21-22 is Parent Teacher Conferences

Mr Cady was also proud to share that the Middle School is now offering Enrichment Classes on certain Thursday afternoons. These no-grade classes offer a low stress fun way to learn creatively while building relationships. Some of the class offerings include Sign Language, Legos, Science Experiments, Creative Writing, Yoga and many more.
